EPIONCE® Active Shield Lotion SPF 30+ ,90ml, £32.00

It's certainly not a cheap option but if you do have some extra cash to spend this is a good choice, particularly for more mature skin as it offers excellent anti aging properties as well as great sun protection. It's water resistant which is ideal for snow holidays and is light and easily absorbed and can be worn under make up too for those unwilling to give up their cosmetics even when on the slopes!
